

TC ID	Test Scenario	Test Data
LOGIN_001	Verify login functionality with valid username and valid password	student / Password123
LOGIN_002	Verify successful redirection after login	student / Password123
LOGIN_003	Verify success message after successful login	student / Password123
LOGIN_004	Verify Logout button visibility after successful login	student / Password123
LOGIN_005	Verify logout functionality	Valid Login
LOGIN_006	Verify login functionality multiple times with valid credentials	student / Password123
LOGIN_007	Verify login using Enter key instead of clicking Submit button	student / Password123
LOGIN_008	Verify error message for invalid username and valid password	wrongUser / Password123
LOGIN_009	Verify error message for valid username and invalid password	student / wrongPass
LOGIN_010	Verify login with invalid username and invalid password	wrongUser / wrongPass
LOGIN_011	Verify login with empty username and valid password	Blank / Password123
LOGIN_012	Verify login with valid username and empty password	student / Blank
LOGIN_013	Verify login with empty username and empty password	Blank / Blank
LOGIN_014	Verify password field masks entered characters	Password123
LOGIN_015	Verify login with username containing only spaces	" "
LOGIN_016	Verify login with password containing only spaces	" "
LOGIN_017	Verify login with username exceeding maximum allowed length	256 Characters

LOGIN_018	Verify login with password exceeding maximum allowed length	256 Characters
LOGIN_019	Verify login with special characters in username field	@#\$%^
LOGIN_020	Verify page load of Login screen	N/A
LOGIN_021	Verify responsiveness of Login page on mobile devices	Mobile Resolution
LOGIN_022	Verify responsiveness of Login page on tablet devices	Tablet Resolution
LOGIN_023	Verify responsiveness of Login page on desktop devices	Desktop Resolution
LOGIN_024	Verify keyboard navigation using Tab key	N/A
LOGIN_025	Verify accessibility of Login page using keyboard controls	N/A
LOGIN_026	Verify labels for Username and Password fields	N/A

Expected Result	Status
User should be able to log in successfully.	Pass
User should be redirected to the successful login page.	Pass
Success message should be displayed to the user.	Pass
Logout button should be displayed.	Pass
User should be logged out successfully and redirected to the login page.	Pass
User should be able to log in successfully every time.	Pass
User should be able to log in successfully.	Pass
Appropriate error message should be displayed indicating an invalid username.	Pass
Appropriate error message should be displayed indicating an invalid password.	Pass
User should not be able to log in and an error message should be displayed.	Pass
User should not be able to log in and a validation message should be displayed.	Pass
User should not be able to log in and a validation message should be displayed.	Pass
User should not be able to log in and a validation message should be displayed.	Pass
Password characters should be hidden/masked.	Pass
User should not be able to log in.	Pass
User should not be able to log in.	Pass
User should not be able to log in and the application should handle the input gracefully.	Pass

User should not be able to log in and the application should handle the input gracefully.	Pass
User should not be able to log in and an appropriate validation/error message should be displayed.	Pass
Login page should load successfully without UI issues.	Pass
Login page layout should be displayed correctly without alignment issues.	Pass
Login page layout should be displayed correctly without alignment issues.	Pass
Login page layout should be displayed correctly without alignment issues.	Pass
Focus should move through controls in the correct sequence.	Pass
User should be able to access and operate all controls using the keyboard.	Pass
Correct labels should be displayed for all input fields.	Pass
